

Technical Manager - Electrical

Full-Time Experience: 5-10 years

We are an integrated renewable energy company delivering sustainable solutions across solar, battery energy storage, hybrid systems, waste-to-energy projects, and Transmission & Distribution infrastructure. Working with commercial, industrial, utility-scale, and community clients, we bring together innovation, engineering expertise, and execution excellence to create reliable and future-ready energy solutions.

Your Key Responsibilities:

- Develop and execute project plans, ensuring timely and within-budget completion of solar/ hybrid solar projects.
- Oversee all aspects of project implementation, including engineering, construction, commissioning, and handover.
- Utilize a deep understanding of solar and battery technologies.
- Collaborate with engineering and procurement teams to ensure compliance with technical specifications and standards.
- Identify potential risks and develop mitigation strategies.
- Ensure compliance with health, safety, and environmental regulations throughout project lifecycles.
- Mobilize resources (equipment/manpower/subcontractors/logistics/administrative) required for project implementation on sites ensuring optimal cost and quality.
- Supervision of all civil, electrical and mechanical work on sites.
- Ensuring that all works are carried out strictly in accordance with approved specifications.
- Prepare and submit all daily/ weekly/ monthly reports as internally and externally required.
- Act as the point of contact for clients, contractors, and relevant authorities.
- Build and maintain strong relationships with project stakeholders to ensure successful completion of projects.
- Provide suggestions on improving the quality of works or cost reduction or project schedule optimization or new technologies.

Our Requirements:

- Bachelor's degree in Electrical Engineering or a related field.
- Proven experience as a Project Manager in the solar energy sector, with a focus on projects involving battery storage systems.
- In-depth understanding of solar energy systems, including design, installation, and maintenance.
- Demonstrated ability to manage multiple sites simultaneously.
- Proficient in project management tools and methodologies.

- Excellent communication and management skills.

What We Offer:

- Competitive salary and benefits package.
- Collaborative and supportive work environment.
- Career growth and development opportunities.
- Opportunity to be at the forefront of renewable energy projects in Africa.
- Chance to be part of a team that is passionate about making a difference in the Renewable Energy Sector.

How to Apply:

- You can apply directly through our website or send an email to gayatrimudgil@jivoenergy.com with "*Your Name - Your Last/Current Company Name*" as the subject line of the email. Please also mention your current CTC and notice period in the email.
